## Board Elections

June is Election time for 2 board positions.

### Sherry O'Dell

My name is Sherry O'Dell. My Husband and I lived in Rainier for 25 years. We bought our home in The Pines 3 years ago.

I was a hairdresser for 45 years and owned my business for 30 years. I was on the City Council in Rainier for 8 years and Mayor of Rainier for 4 years. I have also taken a class in Emergency Management at Mount Weather in Virginia. It's a federal area where the President of the U.S. and the Congress go if there is an emergency. I love serving, helping people and serving our community. I have been Vice-President since our President moved. I'm a published author of a cookbook called "Cooking at the Beauty Shop".

I hope I can rely on your vote. I would appreciate the opportunity to continue to serve you.

### Dayna Brown

I have been a member of The Pines since 2008. I currently work for Clover Park School District, as a Family Support for the Early Learning ECEAP/Head Start program on JBLM. I have my BASW from the University of Washington. Previously worked at Multicare Health as the volunteer coordinator for Mary Bridge & Tacoma General.

I love where I live which is why I'm running for the Board. I want to make a difference in how people react when I say I live "in The Pines." I would like to help be a part of putting a "positive" reaction in our neighbors and encourage and bring out the many strengths in our community.

# SPRING AND FALL CLEAN UP DAYS

There will be no Spring or Fall Clean Up this year.  
Ballots went out and the community voted it down.  
You are responsible for disposing of these items that you would have  
brought to dumpster days.

You can take Household Hazardous Waste to HazoHouse:

**Location: Thurston County Waste & Recovery Center**

**2418 Hogum Bay Road N.E., Lacey**

**Hours of Operation: Friday, Saturday, Sunday, Monday and  
Tuesday 8a.m. to 5p.m.**

If you have scrap metal that needs to be picked up call the office and  
we will be able to give you a few phone numbers:

Pines phone 458-7370

Please make sure that if you have items that need to go to the dump  
keep them out of sight until you can make a trip.

Thank you!

### General Outdoor Burning Rules

**Check Permit Requirements** for your area. For instance, all fires within Thurston County require permits.

**Do NOT** use a burn barrel. Burn Barrels and other burn containers are illegal under state law and their use may result in fines.

**Burn only natural vegetation** from your own property. Trash burning is illegal and may result in fines up to \$14,915.

**Check the weather** prior to starting your burn. Don't burn during air stagnation events nor in windy conditions.

**Fires must be attended** at all times and must be completely extinguished.

**Do NOT** create a nuisance. You are responsible for you fire. Creating smoke, odor and ash that unreasonably impacts neighbors properties is illegal.

## PUGET SOUND ENERGY

### Call 811 Before You Dig

As summer approaches, you may have plans to start construction and landscaping projects. Your friends at Puget Sound Energy want to remind you about the importance of calling 811 at least two business days prior to any digging. It is the law, and utility-owned lines are located for free.

Whether you are planning to use your employees or hire a contractor, smart digging means calling 811 before each job. Outline your dig area in white paint so that the utilities will know where to mark. Even homeowners digging on their own property must call, if digging deeper than 12 inches.

Don't take a chance. Call 811 before you dig, then dig by hand within 2 feet of the markings.

Visit their Safety page to learn more about gas and electric safety, and our Business Services page for all your energy needs.

For questions, please email [businessaccounts@pse.com](mailto:businessaccounts@pse.com)

### PARK TRAIL

The trail from Heather to the River Park is "Use at your own risk" due to the storm damage and erosion.

### LITTERING:

#### PEOPLE LITTER FOR THE FOLLOWING

[Ecology home](#) > [Water Resources](#) > Water conservation: It all starts with you

## Water conservation: It all starts with you

Water conservation, using water efficiently and avoiding waste, is essential to ensure that we have adequate water today and into the future.

Water is a finite resource and the supplies on Earth today are no more than what was here at the beginning of the planet. It is up to all of us to use the water we have wisely, and it is as simple as each of us making small changes. Make conserving water a daily part of your life. And remember when you save water, you save energy and money!

### Indoors

#### Bathroom: What you can do behind closed doors

Over half the water use inside a home takes place in the bathroom.

- Turn off the water while shaving or brushing teeth. (Savings: up to 4 gallons a minute, or up to 200 gallons a week for a family of four!)
- Take short showers instead of tub baths; showers use less water. (If you keep your showers to under 5 minutes you'll save up to 1,000 gallons a month.)
- If you do take a bath, be sure to plug the drain right away and adjust the temperature as you fill the tub.
- Don't use your toilet as a wastebasket. Use a leak-free, high efficiency toilet. (Toilets are by far the main source of water use in the home: nearly 30 percent of residential indoor water consumption.)
- When washing your hands, turn off the water while you lather.

#### Kitchen: Cook up some real water savings

- Wash only full loads of dishes, and select the appropriate water level or load size option on the dishwasher.
- Do not use water to defrost frozen foods; thaw foods in the refrigerator overnight.
- Scrape, rather than rinse dishes before loading them into the dishwasher.
- Compost food waste instead of using the garbage disposal or throwing it in the trash.
- Keep drinking water in the refrigerator instead of letting the faucet run until the water is cool

## Laundry: Rinse out some real money savings

- Wash only full loads of laundry or use the appropriate water level or load size selection on the washing machine.
- Consider purchasing a high efficiency washing machine, which can save over 50 percent in laundry water and energy use.

## Fix leaks: Always and everywhere

- You can significantly reduce water use by simply repairing leaks in fixtures (faucets and showerheads), pipes, and toilets. A leaky faucet wastes gallons of water in a short period of time. A leaky toilet can waste 200 gallons per day. That would be like flushing your toilet more than 50 times for no reason!

## Outdoors

Of the estimated 29 billion gallons of water used daily by households in the United States, nearly 9 billion gallons (30 percent) is used outdoors. In the hot summer months, or in dry climates, a household's outdoor water use can be as high as 70 percent.

- Native and drought tolerant plants can make a beautiful alternative to unused turf areas in your yard. [WSU Cooperative Extension](#) has many resources to assist home gardeners with landscaping using native plants.
- Purchase an inexpensive hose timer to avoid over-watering. Soaker hoses are also a great option for avoiding evaporation.
- [Collecting rainwater](#) to use on your landscape can help you save water outdoors.
- Many local water providers offer rebates on efficient irrigation devices.
- Use a broom or electric blower to clean driveways and sidewalks, rather than hosing them off.
- When washing your car, use an adjustable nozzle or sprayer and turn off the water stream while soaping your vehicle.

# Hummingbird Nectar Recipe

*Courtesy of [www.hummingbird-guide.com](http://www.hummingbird-guide.com)*

**Isn't it Sweet!**

Here is a homemade hummingbird nectar recipe to use now that you have purchased several hummingbird feeders and decided where to hang them.

**A Homemade Nectar Recipe:**

- \* **Step 1:** Bring 1 cup of water to a boil.
- \* **Step 2:** Add 1/4 cup of white granulated sugar.
- \* **Step 3:** Stir well until the sugar is dissolved.
- \* **Step 4:** Boil this mixture for 2 minutes to help prevent it from spoiling too rapidly.
- \* **Step 5:** Allow to thoroughly cool.
- \* **Step 6:** Pour into a clean hummingbird feeder.

**Tips:**

- \* Use a larger 4 parts water to 1 part sugar mixture to make a bigger batch of nectar.
- \* You can store the unused nectar in the refrigerator for 2 weeks.
- \* Do not use honey as this can cause a fatal infection to a hummingbird's tongue.
- \* Artificial sweeteners or sugars have no nutritional value. Please don't use them.
- \* Red dyes are not necessary and some may be unhealthy.
- \* Remember to clean your feeder regularly.
- \* Change the nectar once a week and more often in hot weather.
- \* **NOTE:** A sugar water mixture can quickly ferment in the heat and sun causing bacteria and mold.

We have been using this nectar recipe for years and we have had many hungry birds at our feeders.

We hope your feeders will be as busy with hummingbirds enjoying this delectable treat!
