PUGET SOUND ENERGY

Call 811 Before You Dig

Spring has arrived and you may still have plans to start construction and landscaping projects. Your friends at Puget Sound Energy want to remind you about the importance of calling 811 at least two business days prior to any digging. It is the law, and utility-owned lines are located for free.

Whether you are planning to use your employees or hire a contractor, start digging means calling 811 before each job. Outline your dig area in white paint so that the utilities will know where to mark. Even homeowners digging on their own property must call, if digging deeper than 12 inches.

Don't take a chance. Call 811 before you dig, then dig by hand within 2 feet of the markings.

Visit their Safety page to learn more about gas and electric safety, and our Business Services page for all your energy needs.

For questions, please email businessaccountservice@pse.com
